

Key Features of Multimedia Master of Science (M.Sc.) Program

1. Industrial Projects: 2nd-year projects with partners in EU/US (games, medical tech, education, TV/film).
2. Partnerships: Collaborate with R&D groups to address emerging industry needs.
3. Flexibility: Broad introductory material + specialized topics.

Multimedia M.Sc. Program focuses on Advanced multimedia technologies, including 3D/VR, IoT integration, real-time systems, and Quality of Experience (QoE).

How to Apply to Multimedia MSc program:

1. Submit application via [FGSR Portal](<https://www.ualberta.ca/graduate-studies/admissions-programs/apply/index.html>).
2. Select "Computing Science" → "Multimedia" as your program.
3. Upload required documents (transcripts, references, SOP).
