

Adam White's Email is amw8@ualberta.ca, and Personal Website is <https://sites.ualberta.ca/~amw8/>

Adam White's Education or Academic background: Adam White completed his PhD and MSc in Computing Science from University of Alberta in 2015 and 2006, respectively, following an BSc in Computer Science from University of New Brunswick in 2004.

Adam White's research areas, fields or interests include Continual Learning, Reinforcement Learning, Robotics, Knowledge Representation, Intrinsic Motivation.

Adam White's Notable Work: Adam White is the creator of the popular **Reinforcement Learning MOOC on Coursera**. He also developed "Artificial Intelligence Everywhere", an educational initiative aimed at demystifying AI for non-technical audiences. The course explores History of AI and multidisciplinary roots (psychology, neuroscience), Case studies of modern AI systems (expert systems, supervised/reinforcement learning), and Ethical considerations (privacy, transparency, human-AI interaction).

Adam White serves as the **Director of the Alberta Machine Intelligence Institute (AMII)** and holds the prestigious title of **Canada CIFAR AI Chair**. He is also the **Principal Investigator of the Reinforcement Learning and Artificial Intelligence Lab (RLAI)**,
